Agenda Item Number/Topic 2. City Tree Removal Protocols and Procedures

Recommendation *Field not completed.*

Written Comments The Canopy of San Clemente is at risk of removal. This canopy is one of Ventura's most beautiful treasures and is cherished by residents for miles around. Our street is renowned city-wide thanks to this spectacular canopy. Because the root system connects all of the trees, they are not merely individual trees, but now act as a single organism, that has become an established ecosystem home to hawks and owls. We kindly request a change in procedure to the City Tree Removal Protocol.

I would like to request that each community park contain a public access terminal connected to city hall to allow community members to partake in public meetings. This will help provide equitable access across our city.

Thank you all for our continued cooperation.

Sincerely,

Trevor Gotsman

Written Comments Hello,

I want to thank the Parks Commission for reviewing the City's tree removal protocol and procedures. As a resident of San Clemente Street, I am troubled by the lack of outreach and collaboration with residents as it pertains to the proposed removal of Ficus trees on San Clemente Street. Residents of the street wish to collaborate with the City on ways to minimize risk to the City while maintaining the urban forest that is present on San Clemente Street. There are many ways to mitigate risk exposure other than total removal of the trees. We

look forward to discussions of this nature with the appropriate City staff. Thank you for all you do for our incredible City.

Respectfully,
Daniel Hulst
