Parks and Recreation Commission

Please arrange a public meeting to discuss the use of community members to do ad-hoc community service at all our public spaces. I suggest having several sign-up areas at each venue that community members can share their ideas, labor, skills, where artists can show their works; a node of communication connected to the broader network in real cooperation between City and Community.

I asked the Arts and Culture Commission last night to have the City provide artists venues for free live performance where the community can express what they feel - to come to an appreciation of other points of view.

Set up a sign-in registration where we are given our choice of activities the Parks and Recreation Department needs accomplished. Use us in-house resources: with the gentle care of knowing first hand the hows and why.

The two-stroke blowers and four-stroke mowers and diesel trucks that pollute the sacred to satisfy the superficial, need to stop.

Please allow the least to ease the speed the machines annihilate them.

Please let us live in the place we can leave in peace.

Thank you for caring.

Respectfully yours,

Trevor Gotsman
