Loma Vista Road Paving Project to begin September 1

The City of Ventura Public Works Department has scheduled Contractor, Granite Construction, to repave Loma Vista Road between Mills Road and Main Street starting on September 1, 2017. Loma Vista Road will remain open to traffic during the work, however, there may be temporary lane closures along the construction route and motorists will be advised of detours with traffic cones and/or signage. The project includes sidewalk improvements, installation of ADA access ramps, street paving and striping, and bicycle improvements to ensure mobility and safety for motorists and pedestrians. Construction work is expected to be completed by mid-October 2017.

During construction the Contractor will perform the following work indicated below however; these dates may change due to unforeseen conditions encountered by the Contractor that may significantly impact the work schedule:

- September 1-15: Contractor will work on repairing concrete sidewalks and access ramps (no paving work at this time)
- September 18-21: Contractor will work on grinding and removing the existing asphalt surface
- September 25-27: Contractor will work on laying new asphalt paving material
- October 13: The project is slated to be complete by mid-October

This construction is funded through gas tax revenues and is part of the City's Capital Improvement Plan. The project is providing critical infrastructure for residents, businesses, and the new "Wellness District."

Work will take place Monday through Friday between the hours of 9:00 AM and 4:00 PM. Message boards will be placed on the street prior to the start of work to notify motorists of the construction dates and time of work. "No Parking" signs will

be posted 72 hours in advance to notify motorists, bicyclists, and pedestrians of any on-street parking restrictions or special constraints.

As the work progresses, residents are reminded to drive carefully and follow traffic signage. Every effort will be made to minimize inconveniences while this work is being completed. Residents can call the City of Ventura Public Works Hotline at (805) 658-4731 for daily project updates and restrictions. Please call the Contractor at (805) 879-0051 if you have questions about the work schedule. You may also call the City of Ventura Public Works Department at (805) 654-7887 during regular business hours. The City of Ventura thanks you for your patience as we work to improve the City's infrastructure.
