Narrative: Ventura City Fire and AMR EMS units were dispatched to a report of an injured hiker in the hills of Harmon Canyon Preserve in the county of Ventura. Emergency personnel responded and arrived to find a 58-year-old male with an arm injury after a fall from a mountain bike. Assistance was requested from the Ventura County Fire air operations unit. An “Air squad - advanced life support equipped helicopter was dispatched and provided an air lift and transfer to a waiting ground ambulance. The patient was transported via that ground ambulance to Community Memorial Hospital for further care. The gentleman is expected to make a full and complete recovery.

The Ventura City Fire Department is committed to working with the City’s Safe & Clean Program and regional partners to address any ongoing life-safety and property threats posed by homeless encampments in Ventura. Fires can occur in the river bottom because of unsheltered individuals living in the area who use fire for warmth and cooking. These fires can grow quickly and produce a lot of smoke because of strong winds, dry brush, fuel, and tall grasses.

The City’s Safe and Clean program continues to work on long-term housing solutions and provides preventative resources for our most vulnerable populations. Safe & Clean works proactively with the Ventura Police Patrol Task Force, the Ventura City Fire Department, various social service providers, and community partners to clean up brush and debris in the riverbeds. City staff also visits these areas weekly to share education, health, and social services to unsheltered individuals, who legally, cannot be relocated from the river bottom to a safer location.

Due to HIPAA we are prevented from disclosing an individual’s protected health information (PHI). We may not release information regarding patient’s names, DOB, address, SS# or medical status. All photos are free from copyright and may reproduced as necessary.
