Community Workshop: Electrical and Energy Code Updates

Ventura, Calif. - Community members including electricians, contractors, engineers, architects, and DIY homeowners are encouraged to attend the upcoming Community Workshop: Electrical and Energy Code Updates on Monday, April 17, 2023, at 6:00 p.m. in the Community Meeting Room at City Hall, 501 Poli Street.

The workshop will provide valuable information on the most significant changes to the 2022 California Electrical and Energy Code, primarily focusing on residential changes, items encountered in the field, and some commercial changes. The 2022 code went into effect on January 1, 2023, and is based on the 2020 national electrical code.

Attendees will have the opportunity to ask questions and receive expert advice from our experienced staff in the Community Development Department's Building and Safety Division.

Community members can RSVP for the meeting at www.cityofventura.ca.gov/CD. For questions contact Chief Building Official Shawn Huff at shuff@cityofventura.ca.gov or 805-654-7869.
