DUI/Drivers License Checkpoint Planned this Weekend

Ventura, CA – Ventura Police Department Traffic Unit will be conducting a DUI/Drivers License Checkpoint this Friday, September 4, 2015 at an undisclosed location within the city limits between the hours of 8:00 p.m to 3:00 a.m.

The deterrent effect of DUI checkpoints is a proven resource in reducing the number of persons killed and injured in alcohol or drug involved crashes. Research shows that crashes involving an impaired driver can be reduced by up to 20 percent when well-publicized DUI checkpoints and proactive DUI patrols are conducted routinely.

In California, this deadly crime led to 802 deaths in 2012 because someone failed to designate a sober driver. Nationally, the latest data shows nearly 10,000 were killed by an impaired driver. "Over the course of the past three years, DUI collisions have claimed 6 lives and resulted in 71 injury crashes harming 94 of our friends and neighbors," said Sgt. Darrick Brunk.

Officers will be looking for signs of alcohol and/or drug impairment with officers checking drivers for proper licensing delaying motorists only momentarily. When possible, specially trained officers will be available to evaluate those suspected of drug-impaired driving. Recent statistics reveal that 30 percent of drivers in fatal crashes had one or more drugs in their systems. A study of active drivers showed more tested positive for drugs that may impair driving (14 percent) than did for alcohol (7.3 percent). Of the drugs, marijuana was most prevalent, at 7.4 percent, slightly more than alcohol.

According to the National Highway Traffic Safety Administration (NHTSA), checkpoints have provided the most effective documented results of any of the DUI enforcement strategies, while also yielding considerable cost savings of \$6 for every \$1 spent. Nearly 90 percent of California drivers approve of DUI checkpoints.

DUI Checkpoints are placed in locations based on collision statistics and frequency of DUI arrests affording the greatest opportunity for achieving drunk and drugged driving deterrence. Locations are chosen with safety considerations for the officers and the public.

Drivers caught driving impaired can expect the impact of a DUI arrest to include jail time, fines, fees, DUI classes, other expenses that can exceed \$10,000 not to mention the embarrassment when friends and family find out.

Funding for this checkpoint is provided to Ventura Police Department by a grant from the California Office of Traffic Safety, through the National Highway Traffic Safety Administration, reminding everyone to 'Report Drunk Driver – Call 9-1-1'.

Update:

On Friday September 4, 2015 between the hours of 9:00 PM to 2:15 AM the Ventura Police Department conducted a DUI/CDL Checkpoint in the area of Harbor Blvd and Schooner Dr. The deterrent effect of DUI checkpoints is a proven resource in reducing the number of persons killed and injured in alcohol or drug involved crashes. Research shows that crashes involving an impaired driver can be reduced by up to 20 percent when well-publicized DUI checkpoints and proactive DUI patrols are conducted routinely.

As a result of the checkpoint the following enforcement action was taken:

2 drivers were cited for 14601 VC, Driving on a suspended license and had their vehicles towed.

9 drivers were cited for 12500(a) VC, Driving without a drivers license.

1 driver was cited for 23222 (b) VC, Driver in possession of marijuana in a vehicle.

1 driver was given a DMV Re-Exam for driving under the influence of marijuana.

1 driver arrested for suspicion of driving under the influence of drugs.

Any questions regarding the Checkpoint can directed to Sgt. Darrick Brunk at 805-339-4323, or by email at dbrunk@venturapd.org.
