INSTRUCTIONS

HOW TO DETERMINE GROSS RECEIPTS/COST OF OPERATIONS

If the business address is **INSIDE** the City of Ventura and they:

- Hold a business license in **only** City of Ventura: include all estimated gross receipts.
- Hold a business license in other city/cities: in order to reduce gross receipts by what was reported to the other city/cities you need to include proof of that business license.

If the business address is **OUTSIDE** the City of Ventura: Include all gross receipts estimated from business conducted within Ventura.

***Contractors** cannot report less than \$75,000 without proof. ***Manufacturers** report all sales in California of products manufactured grown or processed, or fish or other sea life sold or processed in City.

What are Gross Receipts? Gross receipts are the total amounts received from all sources without subtracting any costs or expenses.

Claiming Zero (\$0) Gross Receipts is not allowed. If there will be no receipts in the first year of business, you are to claim the expected cost of operations for the year. Contact our office for help with determining cost of operations (expenses).
