

To be completed by Applicant:

To be granted a waiver to install story poles, staking and flagging, the applicant must disclose the proposed rebuild project plans and gain support from abutting adjacent property owners (see citation below).

Applicant Name: _____

Rebuild Address: _____

Rebuild Plans Dated: _____

To be completed by abutting property owner:

Per The City of San Buenaventura’s Emergency Ordinance Thomas Fire Rebuild Overlay Ordinance No. 2018-010:

Temporary Story Pole, Staking, and Flagging. The applicant shall construct on site a visual aid to depict a temporary frame with flagging to represent an accurate silhouette of the proposed rebuild, following the Staking and Flagging Guidelines provided by the Planning Division. Timing for installation of the story poles, staking, and flagging shall occur after filing the Modification Permit application and receiving consultation and notice to proceed by the assigned Project Case Planner. The story poles, staking and flagging shall be erected within 10 days of the Project Case Planer’s issuance of the notice to proceed. The staking and flagging shall remain in place and in good condition through the hearing date and for 10 calendars after the day of the hearing. If an appeal of the project is filed, the story poles, staking, and flagging shall remain in place and in good condition until the appeal process to a hearing is complete.

1. **Waiver for Story Pole, Staking and Flagging.** The applicant may be granted a waiver to install story pole, staking and flagging by the Director if 50 percent or more of the abutting adjacent property owners, the majority of which are owner signature from upslope and similar elevation properties, have reviewed and indicated support for the proposed rebuild project plans, signing a Neighbor Project Support Form provided by the Planning Division.

I, _____, acknowledge that the applicant has disclosed the
(Abutting Property Owner)

proposed rebuild plans dated _____ for the Thomas Fire rebuild located at
(date of plans)

_____. I support the design and waive the requirement
(rebuild address)

for story pole, staking and flagging.
