

Student Name:

Which category weighed the most BEFORE sorting?

Compost

Which category weighed the most AFTER sorting?

Compost

List 3 ways to reduce the amount of trash we throw away during lunch.

1. Use reusable lunch containers.
2. Compost food.
3. Recycle all that you can.
4. Only take what you can eat.
5. Help other's recycle and sort at school.
6. Ask if you have questions about where an item goes.

What are 3 ways you can reduce waste at school and at home?

1. Use both sides of paper before recycling it.
2. Do not use single use plastics. (utensils, water bottles, and straws)
3. Carry a reusable water bottle.
4. Use reusable snack bags and straws.
5. Say, "No, thank you" to straws.
6. Take an extra few seconds to sort waste properly.

In the space below, make a bar graph of all three waste streams after the sorting took place. Label your X and Y axis.
