

Wellness District Parking Lot and Alley Improvements

Description of project: The Wellness District Parking Lot and Alley Improvements Project consist of repaving the parking lot west of and adjacent to the Community Memorial Hospital. Other improvements include replacing parking lot lighting, reconfiguring the parking layout and adding raised curbed islands. The reconfigured parking layout will add five additional parking spaces and improve vehicle circulation. The curbed islands will be landscaped with drought tolerant plantings and rockscaping to compliment the improvements of the new Community Memorial Hospital.
