

**SLOPE SETBACKS**

Based on 2010 California Building Code Section 1808A.7.1

**FOUNDATIONS ON OR ADJACENT TO SLOPES:**

The placement of buildings and structures on or adjacent to slopes steeper than 3 horizontal to 1 vertical shall be in accordance with the following illustrations. The provisions are intended to provide protection for the building from slope drainage, erosion and mudflow, loose slope debris, shallow slope failures and foundation movement.
